

*Opt for a hanger  
whose story you know!*

Designer & manufacturer of clothes hangers since 1951

---

[www.cintres-actus.com](http://www.cintres-actus.com)

---

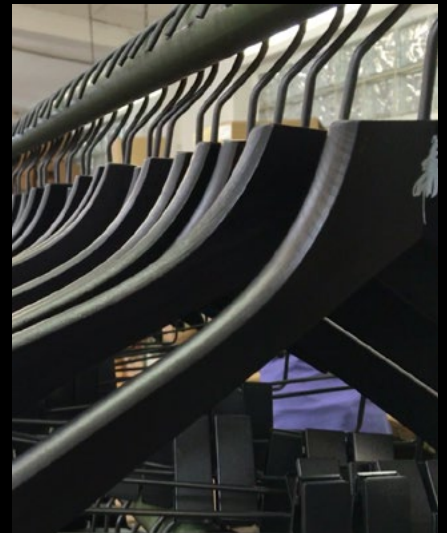

*Since 1951, Actus hangers has specialised in the manufacture of quality hangers, constantly innovating to create and offer you products that meet your needs.*

*Our company's major assets are quality, reliability and speed.*

*When you choose hangers from our production, you can count on:*

- \* Excellent quality at the best price*
- \* A very wide range of hangers*
- \* Quick processing of orders*
- \* Traceability of the wood used*
- \* No harmful products used in our production process*
- \* Respect for the environment and good working conditions for our employees*

*Feel free to contact us for any additional information you need.*

HANGERS

## Actus Cintres, a responsible company!

All the wood used in our production comes from sustainably managed forests. Our factory has held FSC certification since 2001.

The majority of our clothes hangers are made of solid beech, a wood that is widely used in Europe. Beech wood also has the advantage of ensuring excellent durability and longevity for the hanger.

There are also other types of wood available: oak, maple, ash...

To reduce our CO<sub>2</sub> emissions, we favour sources of supply local to our manufacturing site and use green electricity from renewable energy sources.

When it comes to the finishing on our hangers, we avoid the use of any harmful products. Our varnishes and lacquers are water-based and environmentally friendly.

Our factory is a member of the BSCI "Business Social Compliance Initiative". We are sensitive to the working conditions of our employees and strive for the integration of disabled workers.

*Let's create your own hanger!*

*You are unique!  
That's why we do our utmost to produce  
hangers just the way you want them.*

*Design, type of wood, length, thickness, colour, special  
finish, hook, notch, anti-slip, your logo affixed...  
Let's work together to create the hanger that meets your  
needs!*

*We're always ready to listen and offer you personalised advice.  
Feel free to ask us about your project!*

Anti-theft version

**Wooden hanger 255**  
Black glossy lacquer

**255 DBM**  
Silver lacquer  
Anti-theft version

An anti-theft system can be fitted on all our hanger models. The anti-theft hook on the hanger is inserted into the plastic or metal ring. The plastic system clips around your clothes hanger bar. It can now only be removed by cutting it off. This allows you to add hangers without removing the bar. The metal anti-theft system necessitates the removal of the clothes bars in order to thread the ring on the hanger.

Plastic anti-theft ring

# ANTIQUE OAK FINISH

**Hanger 128/30**

**Hanger 149H**

**Hanger 146**

**Hanger 1612**

Make your mark with an original, high-quality hanger: opt for the solid oak hanger with an antique finish! Modern yet timeless, this vintage finish makes your wooden hangers stylish - and your shop as well!

Our hangers are made from solid oak wood and undergo a special treatment to enhance the wood grain which gives them an "Old Style" look. This "used" look is accentuated by slightly oxidised metal parts (hooks and clips).

The hangers shown here are examples of vintage wood hangers.

**This antique oak finish can be applied to our entire range of wooden clothes hangers.**

All hangers can also be personalised and come with a wide range of options: anti-slip, bar and clips, notches...

# SOFT TOUCH FINISH

## **Hanger 128/30**

Black soft touch lacquer  
with 30 mm shoulders and  
4 mm hook, nickel-plated

## **Hanger 746**

Black soft touch lacquer  
with 45 mm shoulders and  
4 mm black hook

## **Hanger E1902**

Black soft touch lacquer  
with metal bar, black clips and hook

A refined soft touch finish with a matt effect and a silky feel. These hangers give you a quick impression of the possibilities we offer.

This soft touch application can be applied on nearly all of the wooden hangers shown in this catalogue.

Your hangers can also be personalised with your logo. Printing options: laser with wood inlay or pad printing.

*Laser printing with inlay*

*Pad printing in white  
(Other Pantone colours available)*

With clips  
Thickness: 12 mm  
Length: 36 cm

### *Metal hangers*

*Would you prefer metal hangers? Just as with our wooden products, we take great care in the production of our metal hangers. Depending on your requirements, we produce hangers made of formed wire or a metal plate, which is then cut before the hanger is sheathed. There are many colours to choose from and of course we do not use any harmful substances in our production process.*
